

THE PERFECT PAPER BOW

Cut paper to square - any size

Draw an X from corners to corners

Fold in half and cut the diagonal lines - approx. 1" from the top of the fold

Round the corners on the fold

Open the fold.

Cut straight up the bottom center to cut out unneeded triangles

Cut out triangle from the top space between the diagonal lines.

Flip over and glue the two rounded corners on each side to the center

Fold over tails and glue

Wrap band around center and glue
